Dr. L-V really cares about her students learning and benefitting from this class. This is one of the few communication courses I've taken (and I've taken all of them except for two-upper level courses and my capstone) that has taught me skills that I can apply in a future career.

I'm going to be using this material for the rest of my life, I'm interested in it, I loved the way it was taught, and I can't wait to use it!

Positive learning environment.

Very approachable and easy to talk to about assignments. Office hours were very helpful.

Very qualified professor to teach this course! She was very knowledgeable of all things journalism and was able to answer pretty much any question.

She is very positive and approachable but also has a lot of valuable hands on experience.

She is very passionate about what she teaches. She makes me feel that it's okay to ask questions and have my own opinion.

My favorite teacher so far from this department-increased my interest in this field.

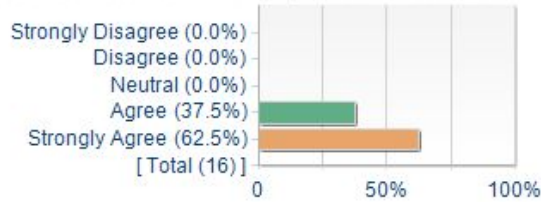

Amazing! She is so helpful and has such a passion for this. She has made me a better writer, and I am so thankful for that.

Super cool, nice and friendly. Always easy to reach over email and very approachable.

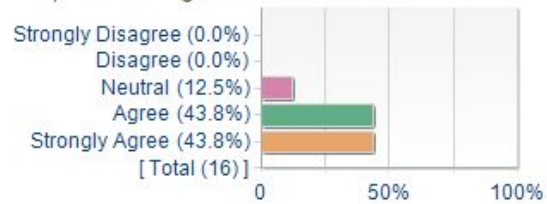

very harsh grader, and very intimidating

Assignments

1. Assignments, tests, and written work in the course reflected the content and emphasis of the course.

2. Required readings/texts were valuable.

Writing assignments were very relevant to the course.

This class is probably the most useful course I will have taken here. I am confused as to why it is taken by most juniors when an entire new format is involved. I have used MLA for my entire life, I am just confused as to why AP format is thrown at us this late into our college-careers. We are about to go out into the real world to use this format and have barely had the time to get used to it.

Quizzes were fairly challenging.

The assignment were extremely interesting and beneficial.

Overall, a good professor and really enhanced my writing skills which will make me more successful in going into Public Relations.

I will never forget AP style.

She tries to explain the projects and material as best as possible the first time and if you still do not understand she will go around and help individually. It is extremely beneficial.

This was by far the most useful course I have taken at CofC. All of the assignments were practical to my major and I can apply all that I've learned to real life situations.
Loved it. Change nothing.
I loved this course.
Very useful.

Comments
The assignments were fun. You are a great teacher. I really feel like I learned a lot from this class. Thanks for all the donuts and candy you brought us!
She has a lot of background in PR which is valuable for those students seeking a career in PR.
Very affable, kept class fun and interesting.
I liked how she balanced lectures and hands-on assignments every class. She is a great teacher who wants the best for her students. All of her critiques' were useful and I feel my writing technique greatly improved from the beginning of the semester.
The fact that she is actually a journalist makes this class much more cool than others. I felt she was more reliable when giving pointers and advice because she was in that field, it gave her credibility!
Helping us in class and beyond to develop connections in the workplace.
The most valuable aspect would be her willingness to help.
The amount of work we had to complete.
